# WHO WE ARE AND WHAT WE DO

We are ForexMoose, day traders since 2020. We've studied finance and specialized in the Forex markets. We started with a small WhatsApp trading group in 2022 but after the ongoing demand for access we decided to expand the team of traders and analysts and moved our copy trading channel over to Telegram at the end of 2023.

What we love most is that trading isn't just our job, it's my whole way of life. I believe that with the right knowledge, anyone can be successful at trading and that is what we want

With the ForexMoose team, you're not just getting a trader, you're getting a coach on your trading journey. Let's explore the world of trading together and make some profits.

Our goal is to help individuals achieve financial freedom through day trading or generate extra income daily. We believe everyone deserves the chance to take control of their time and financial future.

Imagine having the freedom to work anywhere, anytime – day trading makes it possible.

The best part? We've partnered exclusively with a top trading platform, making our services completely free for all users. You just need some capital to get started, and we'll support you every step of the way, as long as we all use this platform.

# OUR WORKFLOW

## WHAT DO WE OFFER

In the world of forex, ForexFXM is here to make things simple and profitable for you. We've spent time learning the ins and outs of the forex market to create smart strategies that help you make money. Our goal is to help you succeed by taking advantage of even the smallest changes in currency values.

### What We Offer:

#### 1. Free Daily Trading Channel:

Explore our free service where we share one trade every day on our channel. It's not just free; it will always be free. This is your chance to see how we do and understand how our strategies work in real situations.

#### 2. Premium Channel with Exclusive Benefits:

For those who want more, we have a premium channel. We've partnered with some of the best brokers globally to make this service 100% free for everyone! All we ask is that you sign up with our broker and deposit money into your own account. Don't worry; we can't touch your money because it's on your own trading account where we don't have access to. In return, you get 4-8 trades a day, detailed analyses, and helpful coaching sessions. As long as you stick with the same broker, your membership is for a lifetime. We believe in being clear about our results, and our coaches are here 24/7 to answer any questions you might have.

# RISKS

## WHAT'S IS AT STAKE

Our goal is to conscientiously inform our clients about the risks associated with investing. It is crucial for you to consider whether you can keep your emotions in check when making an investment decision. The value of your investment will fluctuate, and, as you may understand, taking risks is inherent in achieving returns. Therefore, it is important for you to thoroughly comprehend the risks of investing before signing up for our service. Your initial investment may decrease in value or even be entirely lost. Therefore, do not invest money that you may need. Only use funds that you can afford to lose for your investment.

Approximately 90% of people incur losses when trading on the forex market. We diligently strive to generate profits, and so far, we've been successful for three years! However, past results are never a guarantee of future performance. Even the best financial products experience losses from time to time, and the same applies to ForexFXM Signals. If we only made profits, it wouldn't be realistic!
